activities**

## Educational Activities

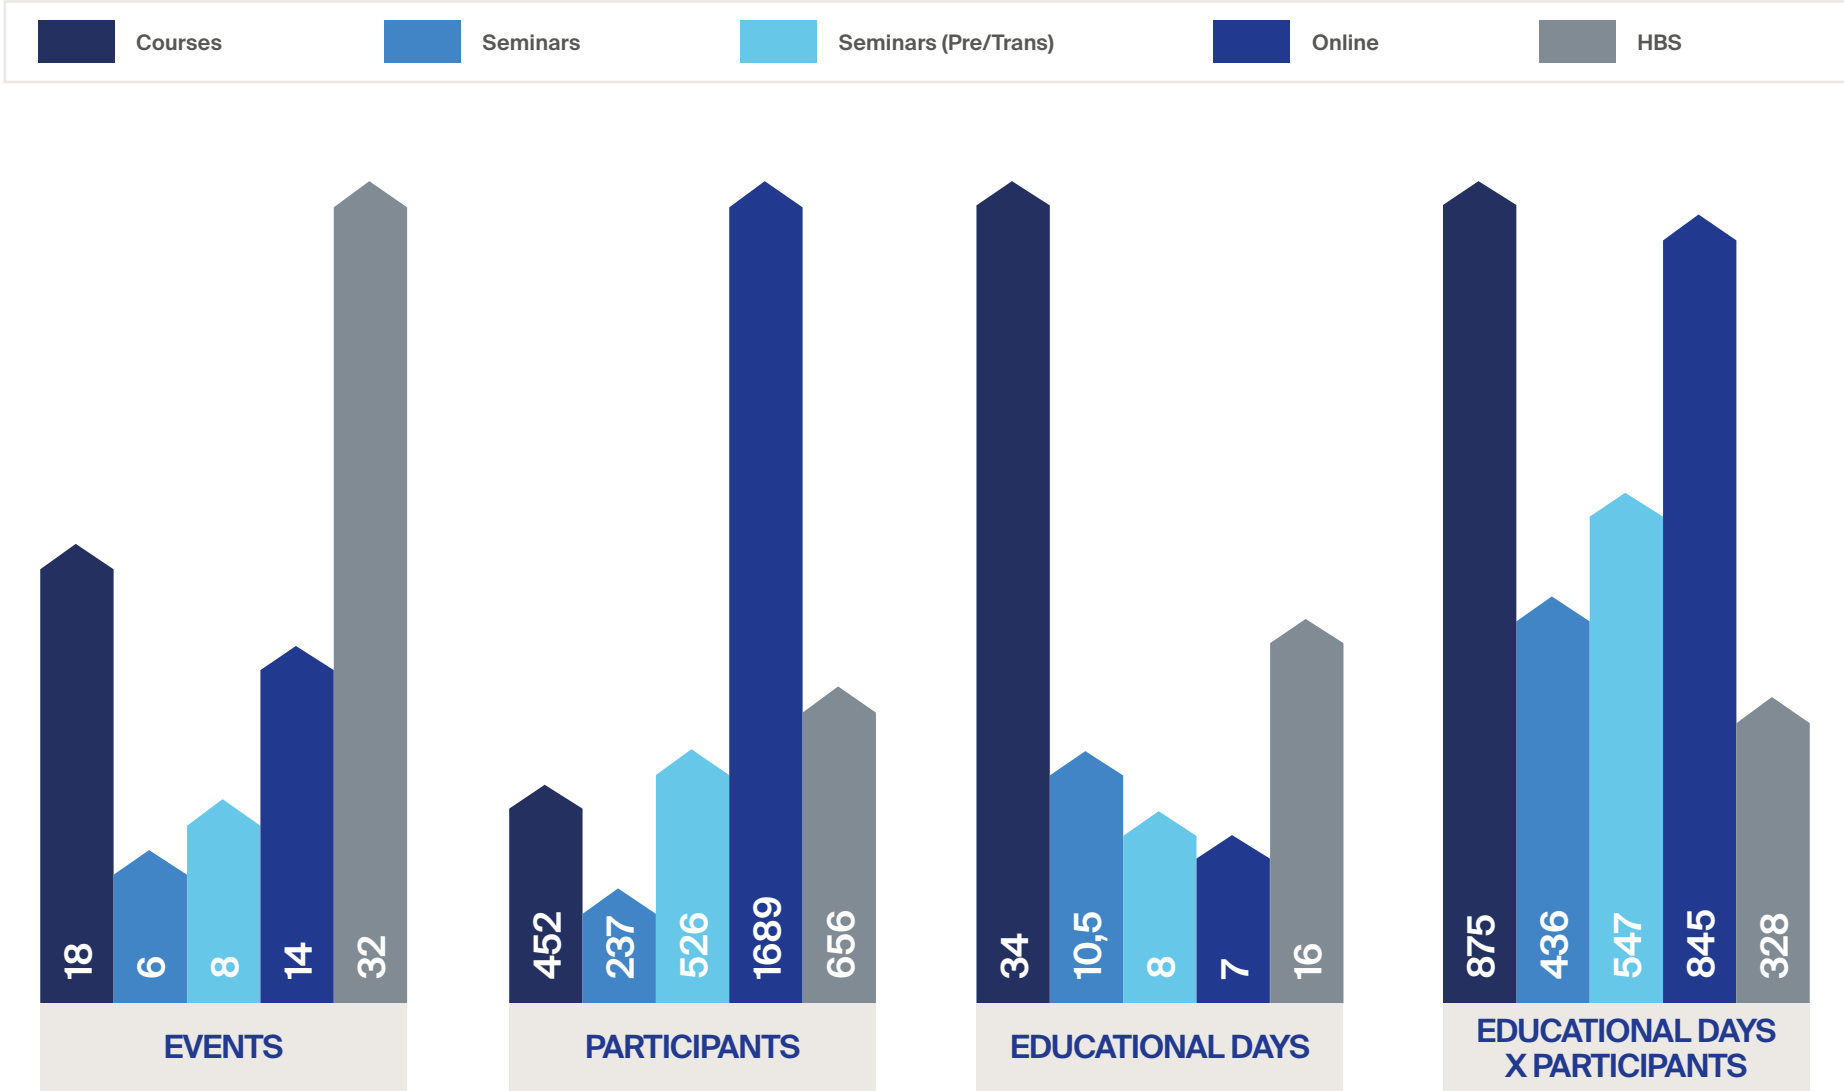

### Educational activities statistics

Once again our numbers show an increase in the amount of participants and educational offers for our audience. Important academic events, virtual learning, anatomical specimen courses and symposia were performed throughout 2019. All the events were curriculum-aligned and had their programs based on the AOSpine Principles, competencies and learning outcomes, which decidedly enhanced the quality of the educational offers.

## 2019 activities in numbers

# Face-to-face activities

Why get involved in supporting LDCs?

- Perfectly aligned with AO's vision and mission
- AO has the expertise and global network
- Well-positioned to contribute to the global solution
- Inherent altruism that exists in all AO contributors
